Granite Inliner delivers state-of-the-art trenchless pipeline rehabilitation methodologies to municipal governments and their utilities throughout North America. Our goal is to provide Owners with a cost-effective and time saving solution to help them meet their infrastructure improvements needs. From our flagship Inliner Cured-In-Place-Pipe (CIPP) to our fiberglass reinforced UV-Cured liners we can rehabilitate most any gravity or pressure pipeline system without the need for excavation.

GRANITE INLINER'S VALUE PROPOSITION TO MUNICIPAL CUSTOMERS

- ✦ To provide a quality no-dig solution that meets our customers needs for pipeline rehabilitation.
- ✦ To bring our research and development, vertical integration, and years of experience together as the CIPP provider of choice in the industry.
- ✦ To extend the service life and improve hydraulic capacities of existing pipelines while saving time and money over traditional dig-and-replace methods.

ASSURANCE OF QUALITY AND OUR COMMITMENT TO EXCELLENCE

We bring 30 years experience to the table and have installed CIPP in circular and non-circular pipes from 6" up to 120" in diameter. We are ISO certified and vertically-integrated which brings unparalleled quality and consistency to the work we perform. That integration is achieved by the fact we manufacture our own tubes through Liner Products and we utilize several longstanding relationships with key industry partners to complete our project scopes.

PORTFOLIO OF SERVICES

- ✦ Mainline CIPP
- ✦ UV Lining
- ✦ Lateral CIPP
- ✦ Manhole Renewal
- ✦ Geopolymer
- ✦ Water Line and Pressure Pipe Renewal
- ✦ CCTV and Cleaning

PROCUREMENT OF SERVICES

Today, more and more municipalities are exploring ways to bring a best-value approach into their contractor selection processes. The rewards can be several, including expedited project delivery, reduced risk, higher product quality and the exchange of ideas brought about by genuine partnering. Granite Inliner has experience in alternative procurement methods that include:

Design-Build; Both Traditional and Progressive

Quality Based Selection Scoring

Construction Manager at Risk

Co-Operative Purchasing
